### 1. Nature and continuance of operations

Lithium One Metals Inc. (the “Company”) was incorporated on August 30, 2006, under the *Business Corporations Act* of British Columbia, and changed its name from Yorkton Ventures Inc. to Lithium One Metals Inc. on April 20, 2022. The Company’s shares are traded on the TSX Venture Exchange (“TSX-V”) under the trading symbol LONE. The Company’s shares also trade on the OTC Pink in the United States under the symbol LOMEF. The Company’s head office is located at 1615 – 200 Burrard Street, Vancouver, British Columbia, V6C 3L6, Canada, and the registered office of the Company is located at 2501 – 550 Burrard Street, Vancouver, British Columbia, V6C 2B5, Canada.

The Company’s principal business activities are the exploration and evaluation of resource properties in North America. The Company is in the process of exploring its resource properties, but it has not yet determined whether these properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production or from proceeds of disposition. To date, the Company has not received any revenue from mining operations and is considered to be in the exploration stage.

These condensed consolidated interim financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the ordinary course of business. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. During the nine months ended March 31, 2024, the Company incurred a net loss of \$3,997,422. As at March 31, 2024, the Company had a working capital deficit of \$2,003,770 and an accumulated deficit of \$10,114,072. The Company’s continuation as a going concern is dependent upon the successful results from its mineral property exploration activities and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. Management is of the opinion that sufficient working capital will be obtained from external financing to meet the Company’s liabilities and commitments as they become due, although there is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These factors may cast significant doubt on the Company’s ability to continue as a going concern. These condensed consolidated interim financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

### 2. Significant accounting policies

#### ***Statement of compliance***

These condensed consolidated interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”), and interpretations of the International Financial Reporting Interpretations Committee. Therefore, these financial statements comply with International Accounting Standard (“IAS”) 34 *Interim Financial Reporting*.

This interim financial report does not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the annual consolidated financial statements of the Company as at June 30, 2023 and for the year then ended.

### 2. Significant accounting policies (continued)

#### *Statement of compliance (continued)*

The condensed consolidated interim financial statements were authorized for issue on May 29, 2024 by the directors of the Company.

#### *Basis of preparation*

The condensed consolidated interim financial statements have been prepared on a historical cost basis, except for certain financial assets measured at fair value, as explained in the accounting policies set out in Note 2 of the annual consolidated financial statements for the year ended June 30, 2023. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information. All dollar amounts presented are in Canadian dollars, unless otherwise specified.

#### *Basis of consolidation*

These condensed consolidated interim financial statements include the accounts of the Company and its subsidiaries. A subsidiary is an entity in which the Company has control, directly or indirectly. Control is defined as the investor being exposed, or having rights, to variable returns from its involvement with the investee and having the ability to affect those returns through its power over the investee. All material intercompany transactions and balances have been eliminated on consolidation.

Details of the Company's subsidiaries as at March 31, 2024 are as follows:

<b>Name</b>	<b>Place of Incorporation</b>	<b>Ownership % March 31, 2024</b>	<b>Ownership % June 30, 2023</b>
9412-1068 Québec Inc.	Québec	0%	0% (Note 4(c))
1370835 BC Ltd.	British Columbia	100%	100%
Norris Lithium Inc. ("Norris")	British Columbia	100% (Note 4)	0%

#### *Functional and presentation currency*

Items included in the financial statements of each of the Company's entities are measured using the currency of the primary economic environment in which the entity operates ("functional currency"). The functional currency of the Company and its subsidiaries is the Canadian dollar.

All financial information has been presented in Canadian dollars in these condensed consolidated interim financial statements, except when otherwise indicated.

#### *Foreign currency translation*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities are translated at the rate of exchange prevailing when the assets were acquired or the liabilities incurred. Revenue, expense items, and capitalized exploration and evaluation expenditures are translated using the average rate of exchange during the financial statement periods, except for depreciation and amortization, which are translated at historic rates.

(Unaudited – Expressed in Canadian Dollars)

---

### 2. Significant accounting policies (continued)

#### *Foreign currency translation (continued)*

Foreign exchange gains and losses resulting from the translation of transactions and balances denominated in foreign currencies are included in the condensed consolidated interim statement of operations.

#### *Significant accounting judgments, estimates and assumptions*

The preparation of the Company's condensed consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

#### *Significant Estimates*

There are no significant areas requiring the use of estimates.

#### *Significant Judgments*

Critical accounting judgments are accounting policies that have been identified as being complex or involving subjective judgments or assessments. Critical accounting judgments include the recoverability of exploration and evaluation assets and going concern assumption.

#### Exploration and evaluation assets

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgment in determining whether it is likely that future economic benefits are likely either from future exploitation or sale or where activities have not reached a stage that permits a reasonable assessment of the existence of reserves. The deferral policy requires management to make certain estimates and assumptions about future events or circumstances, in particular whether an economically viable extraction operation can be established. Estimates and assumptions may change if new information becomes available. If information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in the condensed consolidated interim statement of operations in the period when the new information becomes available.

#### Going concern

The assessment of whether the going concern assumption is appropriate requires management to take into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. The Company is aware that material uncertainties related to events or conditions may cast significant doubt upon the Company's ability to continue as a going concern.

#### Business combination

The determination of the acquisition of Norris as an asset acquisition rather than a business combination requires management judgment as to whether Norris met the definition of a business, as disclosed in Note 4.

### 2. Significant accounting policies (continued)

#### *Accounting standards adopted during the period*

##### *Disclosure of Accounting Policies (Amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2 Making Materiality Judgments)*

These amendments continue the IASB's clarifications on applying the concept of materiality. These amendments help companies provide useful accounting policy disclosures, and they include: requiring companies to disclose their material accounting policies instead of their significant accounting policies; clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and do not need to be disclosed; and clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material. The IASB also amended IFRS Practice Statement 2 to include guidance and examples on applying materiality to accounting policy disclosures.

These amendments are effective for reporting periods beginning on or after January 1, 2023. The Company adopted these amendments for the reporting period beginning on July 1, 2023. These amendments have reduced the disclosure of accounting policies for the Company.

##### *Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction (Amendments to IAS 12 Income Taxes)*

These amendments clarify how companies account for deferred taxes on transactions, such as leases and decommissioning obligations, with a focus on reducing diversity in practice. They narrow the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. As a result, companies will need to recognize a deferred tax asset and a deferred tax liability for temporary differences arising on initial recognition of a lease and a decommissioning provision.

These amendments to IAS 12 are effective for years beginning on or after January 1, 2023. The Company adopted these amendments for the reporting period beginning on July 1, 2023. These amendments did not have any impact for the Company.

##### *Amendments to IAS 8 Definition of Accounting Estimates*

IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* was amended in February 2021. The IASB issued "Definition of Accounting Estimates" to help entities distinguish between accounting policies and accounting estimates.

These amendments are effective for reporting periods beginning on or after January 1, 2023. The Company adopted these amendments for the reporting period beginning on July 1, 2023. These amendments did not have a material impact on the Company.

##### *Classification of Liabilities as Current or Non-current (Amendments to IAS 1)*

IAS 1 has been amended to promote consistency in applying the requirements by helping companies determine whether, in the statement of financial position, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current.

These amendments to IAS 1 are effective for years beginning on or after January 1, 2024. These amendments are expected to have no impact for the Company.

### 4. Exploration and evaluation assets (continued)

On September 27, 2023, the Company completed the acquisition of Norris by way of a court-approved plan of arrangement. The Company acquired all the outstanding shares of Norris in consideration for the issuance of an aggregate 22,684,434 common shares (valued at \$4,877,153) of the Company to the former Norris shareholders, based on the share exchange ratio of 0.672 common shares of the Company for each Norris share held (the “Exchange Ratio”).

All stock options of Norris were exchanged for 1,747,200 stock options of the Company, with adjustments to the number of options and the exercise price in accordance with the Exchange Ratio. All warrants of Norris remain exercisable for the same aggregate consideration payable, subject to adjustments for the Exchange Ratio as if the warrants had been exercised prior to the plan of arrangement, resulting in 5,491,247 warrants outstanding to former Norris warrant holders.

The acquisition of Norris has been accounted for as an acquisition of assets and liabilities, as Norris does not meet the definition of a business under IFRS 3 *Business Combinations*. The acquisition of the net assets of Norris was recorded at fair value of the consideration transferred of \$4,877,153, as detailed above.

<b>Net Assets Acquired</b>	<b>\$</b>
Cash	2,143,735
Goods and Services Tax and other receivables	174,022
Prepaid expenses	372,302
Exploration and evaluation assets	2,536,546
Accounts payable and accrued liabilities	(349,452)
	<b>4,877,153</b>

The Company incurred consulting and legal fees of \$643,166 relating to the acquisition of Norris, which is added to exploration and evaluation assets.

### 11. Related party transactions (continued)

On June 28, 2023, the Company received a loan from a private company controlled by a director in the amount of \$90,000, which is unsecured, non-interest-bearing and due on demand. The loan was repaid on August 4, 2023 (Note 5).

### 12. Financial instruments and risk management

#### (a) Fair value

Fair value measurements are classified using a fair value hierarchy that reflects the significance of inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 – valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 – valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- Level 3 – valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair values of financial instruments, which include cash, accounts payable and accrued liabilities, and loans payable, approximate their carrying values due to the relatively short-term maturity of these instruments.

#### (b) Credit risk

Financial instruments that potentially subject the Company to a concentration of credit risk consist primarily of cash. The Company limits its exposure to credit loss by placing its cash with high credit quality financial institutions. The carrying amount of cash represents the maximum credit exposure.

#### (c) Foreign exchange risk

Foreign exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign currency exchange rates. The Company is not exposed to any significant foreign exchange risk.

#### (d) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company is not exposed to significant interest rate risk, as it does not have any liabilities with variable rates.

#### (e) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's objective to managing liquidity risk is to ensure that it has sufficient liquidity available to meet its liabilities when due. The Company relies on raising debt or equity financing in a timely manner.

Loans payable	90,000	90,000	-
	<b>943,228</b>	<b>943,228</b>	<b>-</b>

#### (f) Price risk

The Company is exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities is subject to risks associated with fluctuations in the market price of commodities.

### 13. Capital management

The Company manages its capital to maintain its ability to continue as a going concern and to provide returns to shareholders and benefits to other stakeholders. The capital structure of the Company consists of cash and equity comprised of issued share capital and share-based payment reserve.

The Company manages its capital structure and makes adjustments to it in light of economic conditions. The Company, upon approval from its Board of Directors, will balance its overall capital structure through new share issuances or by undertaking other activities deemed appropriate under the specific circumstances.

The Company is not subject to externally imposed capital requirements and the Company's overall strategy with respect to capital risk management remains unchanged for the nine months ended March 31, 2024.

### 14. Segmented disclosure

The Company has one operating segment, being mineral exploration and development. All of the Company's assets are located in Canada.
